INTRODUCTION

The Cornwall Archaeological Society intends to publish an Index volume to cover each ten issues of *Cornish Archaeology*. The present volume covers *Cornish Archaeology* Nos 1 - 10, published between 1962 and 1971. It also includes an Index to all the *Proceedings of the West Cornwall Field Club*. This publication was superceded by *Cornish Archaeology* in 1962 when the West Cornwall Field Club was expanded to form the present Cornwall Archaeological Society. The new Society inherited responsibilities as well as assets from the former Field Club, one of which is fulfilled by the inclusion of the Index to the Proceedings of the Field Club in the present volume.

Both Indexes have been expertly prepared by Mrs Phoebe Procter to whom the Society is much indebted for the skill and high standard of their content and presentation.
